FACTS of WOMEN-OWNED BUSINESS in MISSOURI

Women-Owned Businesses¹

According to the most recent MERIC report, there were 130,772 women-owned firms in Missouri in 2007, up from 120,457 in 2002, according to data from the U.S. Census Bureau's 2007 Survey of Business Owners. This was an 8.6 percent increase in the number of womenowned firms in the state. These firms accounted for more than \$20.2 billion in sales and receipts in 2007.

In the U.S., there were 7.8 million women-owned firms in 2007, up 19.9 percent from 2002. Sales and receipts from women-owned firms totaled \$1.2 trillion in 2007. Women-owned firms made up 28.8 percent of all firms and 3.9 percent of all sales and receipts in the U.S.

States with the largest number of women-owned businesses were California (1,039,208), Texas (609,947), New York (594,517), Florida (581,096) and Illinois (343,073). In addition, California also had the largest gross sales from women-owned firms.

Twenty-five states, including Missouri, had more than 100,000 businesses owned by women. Eleven states had more than 200,000 women-owned firms in 2007.

Women-Owned Business by Industry²

Industry

Most women-owned businesses in Missouri are concentrated in three main industry groups – other services (17.0 percent), health care and social assistance (15.4 percent) and retail trade (13.8 percent). Other significant sectors include professional, scientific and technical services (11.3 percent) and administrative support, and waste management, and remediation services (10.1 percent).

In terms of total sales and receipts, the largest grossing industries are wholesale trade, retail trade, manufacturing, social assistance, health care and construction. This indicates that although wholesale trade, construction and manufacturing have fewer firms, they have a larger impact on Missouri's economy in terms of gross sales.

Arts and Entertainment Industries gained the most ground in Missouri, growing by 48.5 percent and adding 1,772 additional firms between 2002 and 2007. Educational services (39.9%), administrative support (25.4%), and real estate (23.0%) followed.
